

Empire Square SE1

Project Profile

Client: Berkeley Homes c/o Stonedale Property Management Ltd

Project Summary: Empire Square is a flagship development located in The Borough, near London Bridge. The development built upon a Brownfield site is a mixed use development including 572 residential apartments.

We were appointed in 2010 to carry out a cradle survey of the balconies to the central tower block. The purpose of this was to inspect the integrity of the glass balustrades following a recent incident whereby one of the glass sheets to the balustrades shattered and fell to a roof terrace below.

We continue to provide building surveying support more recently assessing the exterior cladding for insurance purposes.
