

Project Profile

Client: Globe Wharf RTM Ltd

Contract Value: £460,000 (Over 5 year PMP)

Project Summary: Globe Wharf is a former Victorian warehouse Building located on the banks of the River Thames which was converted to provide residential accommodation in 1998.

We were appointed in 2009 to undertake a building condition survey and prepare a Planned Maintenance Programme (PMP) for the site following completion of a number of defect inspections to the block on behalf of the managing agent.

Works scheduled under the PMP commenced in late 2009 with further works completing in January 2011. Work will continue in 2012 and 2013 to complete the first cycle of the programme.

In conjunction with the above we continue to provide day to day reactive surveying support in respect of building defects which arise and we act as freeholders Surveyor where licenses for alteration are required in respect on individual leaseholder adaptations.
